## SRB

Security Relay Box for  
ZKAccess Stand-alone  
Access Control Readers

(bottom side view)

(top side view)

Security Relay Box (SRB) is a tiny (2 inch), simple and cost-effective single door controller designed to provide an added layer of security when connected to ZKAccess standalone readers. SRB (not the reader) controls the door lock, thus preventing unauthorized parties from bypassing the door lock when tampering with the reader.

### Specifacaton

**Display:** 2 LED indicator
