

Stranded galvanised wire

Stranded galvanised steel is high tensile and hard to cut. The flexibility offered by the stranded wire construction makes working with this wire easier during installation and results in a neat clean look on the fence without compromising the fences performance.

Features:

- Easy to work with stranded wires
- Ideal choice for in-land use where corrosion is low
- High in tensile strength which us harder to cut

Specifications:

Material: Galvanised steel

Construction: Stranded
