

Mimo Omni Antenna

13dBi | 4.9-5.8GHz | 360°

Model: ANT4958Q13A-DP

5GHz MIMO Antenna

Features

- 4.9-5.8GHz Frequency
- 12dBi High Gain
- MIMO
- Dual Slant

Applications

- 4.9/5.1/5.3/5.4/5.8GHz ISM and UNII Band
- MIMO and 802.11n Applications
- 802.11AC Applications
- PTMP Data Links

Technical Specifications

Electrical

Model	ANT4958Q13A-DP
Frequency Range	4.9-5.8GHz
Gain	13dBi
VSWR	<2
Polarization	Dual Slant (V/H)
Isolation	>25dB
Horizontal Beam width	360°
Vertical Beam width	7°
Maximum Power Per Port	50W
Impedance	50Ω
Lighting protection	DC Ground

Mechanical	
Connector	2-RPSMA or 2-N-Female
Antenna Size	Φ7*80cm
Antenna Weight	3kg
Antenna color	white
UV protection	UV resistant PVC
Bracket Material	aluminum
Ingress protection	IP55 rain resistant
Diameter of the Pole	Φ30 to φ70 mm
Operational Temperature	-40°C to +70°C (-32°F to +158°F)
