

# Optic Fibre Patch Panels

LIGHTspeed 19-inch rack-mountable optical fibre patch panels are designed for voice, video and data applications including 10 Gigabit/s Ethernet (IEEE802.3ae). This makes them the ideal future proof solution for rapidly evolving backbone and desktop requirements.

## FEATURES

- > ISO 11801, TIA/EIA 568.C and EN 50173 compliant.
- > 19" rack-mountable, 200mm deep.
- > Multiple adaptor options available i.e. ST, FC, SC, LC,
- > Individually labelled ports
- > Adjustable rack mounting brackets
- > Removable top plate
- > Cable entry gland
- > Cable management kit.

## APPLICATIONS

- > Data centres, premise installations, telecommunication network
- > 10 Gigabit/s applications
- > Backbone and desktop applications
- > Indoor applications

Panel ST-FC  
Simplex 24-port

Panel ST  
Simplex 48-port

Panel SC/MTRJ  
Simplex 24-port

Panel SC Duplex  
24-port

Panel SC Duplex  
12-port

Panel LC Quad  
24-port

Panel LC Quad  
12-port
